American Concul Letcher, at Chihua-hua, reported to the State Department that Charles D. Eider, an American of Ayala Ranch, near Durango, recently reported killed, passed through Chihuahua to-day on his way to the bor-

Southward Advance.

Douglas, Ariz., March 28.—The southward advance of Constitutionalist troops under General Obregon will be begun on Monday from Navajoa, according to advices received here to-

day by rebel agents.

General Obregon, it was said, planned General Obregon, it was said, planned to traverse Sinaloa, recruiting on the march, and hoping to enter Tepic and Jalisco with an army of 8,000 men. He expected to have that number in his command when he reached Guadalajara, it was reported, where he looked for strong resistance.

It also was said General Obregon had received an abundant supply of arms and ammunition, with which to equip recruits he obtains on the way south.

Sabre Is Uscless Weapon.

Washington, March 28.—Bayonets and sabres played no part in the battle of Ojinaga, Mexico according to a report made to the War Department to-day by Captain Louis C. Duncan, army medical corps, U. S. A. one of the surgeons who attended the wounded at the hospital camp at Ieesidio, Texas. Although the Federal infantry carried bayonets and the cavalry sabres, Captain Duncan saw nothing but gunshot wounds among his patients. He concludes that "the sabre is a useless weapon."

Is a very gentle, invigorating stimulant and tonic that influences for good the surgeons of the body. It builds up the tissues, tones up the beart and gives power to the brain, strength and elasticity to the muscles of the surgeons who attended the wound-ed at the hospital camp at Ieesidio, Texas. Although the Federal infantry carried bayonets and the cavalry sabres, Captain Duncan saw nothing but gunshot wounds among his patients. He concludes that "the sabre is a useless weapon."

Alaska and Yukon Pioneer Buys Duffy's With Gold Dust

Has Used Duffy's Pure Malt Whiskey For the Past Twenty Years and Says It Gives Him Health and Power to Face the Hardships of Some of the Most Remote Mining Camps on This Continent.

Years ago, when I was under engagement as Mining and Metallurgical Engineer in Old Mexico—that was in '92 and '93—I was plumb broke down in health after some hard and strenuous work. I had Duffy's Pure Malt Whiskey sent down to me especially—way up in the Sierra Madres Mountains, 200 miles northwest of the City of Durango—it put me on my feet,

so as to face the hardships of this country.
"I am now 67 years old and it is quite a difference, although I think I am as young as ever and can undertake all kinds of hardships. I am considered one of the very oldest of Alaska and Yukon pioneers, as I started the first legitimate mining in Alaska in '77, before I went to Mexico. I built the first quartz mill in Alaska and mined the first gold ore out of rock; but

the first quartz mill in Alaska and mined the first gold ore out of rock; but 1 do break down and need a stimulant like your Duffy's Malt.

"We can't get anything here or within hundreds of miles around, but if you can ship a couple of bottles a month of your Elixir I would like to have you let me know. We have no currency here—our only exchange is gold dust—the commercial value of which is \$17.00 per ounce. I'll ask you to accept such as currency, and do inclose to you ¼ ounce, so send me what you can of Duffy's for it."—George E. Pilz, Jack Wade Creek P. O.,
